**BRIAN J. WAGNER JOINS EPSILON IMAGING BOARD OF DIRECTORS**

Ann Arbor, MI, August 1, 2017 – Epsilon Imaging, Inc., a visualization and analysis software provider transforming cardiac diagnostic workflow, today announced it has appointed Brian J. Wagner to its Board of Directors.

“Brian is a strong business leader and strategist with over 20 years of experience in the healthcare and life sciences industries,” said Eric Sieczka, president and CEO at Epsilon Imaging. “We look forward to Brian bringing his extensive and valuable experience in sales and marketing to Epsilon as a board member. As we continue to position ourselves for growth as a provider of best in class visualization and analysis with strain imaging for improved patient and population management, Brian’s expertise and guidance will further strengthen our ability to expand our footprint in echocardiography.”

Brian J. Wagner served as Chief Commercial Officer for CAS Medical Systems, Inc., a worldwide entrepreneurial company that designs, manufactures and markets innovative cerebral oximetry medical device technologies. Prior to that, he served as Senior Vice President and Chief Marketing Officer for Philips Imaging Systems, where he led worldwide marketing across eight operating divisions. Wagner held a series of executive management positions at Kimberly-Clark Health Care, now known as Halyard Health, including General Manager of the Global Pain and Temperature Management Division and Vice President of Global Strategic Marketing and Business Development. Wagner’s experience also includes serving as Vice President and General Manager of Rubbermaid Healthcare, a medical division which he developed and launched, focusing on electronic medical administrative records. Additionally, he held various sales and marketing management positions of increasing responsibility with Guidant Corporation and Boston Scientific during years of unprecedented growth. Most recently, Wagner founded Health Insights Consulting Group to help healthcare and life sciences businesses of all sizes increase revenue through strategic review, market entry implementation, and revenue models focused on sustained growth, building on his experience in sales and marketing in healthcare. Wagner earned his Master’s from Harvard University and a Bachelor of Science from Miami University of Ohio.

**About Epsilon Imaging**

As a provider of workflow enhancing solutions for cardiology, Epsilon Imaging is transforming cardiac diagnostic workflow with a vendor neutral suite of visualization and analysis software applications designed for echocardiography. EchoInsight® provides clinical applications for improved quantification of the heart with clinical strain imaging. Applications assist clinicians to enhance, standardize, and streamline interpretation and monitoring of echo studies. Learn more by visiting [epsilon-imaging.com](http://epsilon-imaging.com).
